How does this work again?

When you send us (by email or mail) your teen's completed Quiz, we'll send you back a personalized Certificate of Completion, along with clear instructions about how to notify your insurance agent.

Your insurance agent will be able to apply the special "Young Driver Education" discount to your policy as soon as they receive the Certificate along with a copy of your student's most recent report card, and verify your teen's driving record.

This should maximize your family's savings on your teen's car insurance rate from Allstate Insurance.

Your teenager needs to re-certify every six months to maintain the discount. That's easy to do by simply taking the next Insurance Discount Seminar in the series and following the same steps. Just send us the next completed Quiz and give your agent the new Certificate of Completion, along with your student's current report card.

THANKS for being concerned about your teen driver's safety as well as your family's budget, and for taking advantage of this program to educate and protect your newly licensed driver.

Sincerely, Mike, Jayne & Kelly
